Professional Services

Description

With Logs Migration Service you receive an end-to-end engagement where Dynatrace experts assess your Logs environment to then design and architect a modernized, optimized and unified Observability platform. By the end of the engagement, Dynatrace will migrate your Logs from Splunk, enable key persona groups and help operationalize across the organization. What you will get:

- **Accelerated Migration:** Save time, reduce risk, and unlock AI-powered insights faster with a seamless transition of your Splunk configurations and data into Dynatrace with our Automated migration process.
- **Cost Conscious Strategy:** A clear path to improved Total Cost of Ownership (TCO) and Return On Investment (ROI) through optimization of license overlap and reduced dual-running costs
- **Maintain Business Continuity:** Uninterrupted operations, preserving your existing monitoring workflows, dashboards, and alerting mechanisms throughout the transition with our proven migration framework.
- **Drive Adoption:** Operationalize and scale Dynatrace Logs adoption across your organization, enabling full-stack observability and a seamless transition for former Splunk users.
