OpenTelemetry excellence starts with Dynatrace

Dynatrace seamlessly integrates with OpenTelemetry and leverages intelligent automation to transform telemetry data into actionable insights—empowering teams to resolve issues faster, optimize performance, and stay focused on what matters most: innovation.

STANDARDIZED DATA COLLECTION

INTELLIGENT VISUALIZATION

ACTIONABLE INSIGHTS

ALL IN ONE UNIFIED PLATFORM

STOP LOSING FLOW TO HIDDEN TIME DRAINS

Developers waste hours each week battling productivity blockers:

- Chasing unknown unknowns instead of building features
- Waiting on slow, frustrating feedback loops
- Struggling through debugging dead ends
- Piecing together fragmented data from silos
- Untangling complex system dependencies

GET BACK TO BUILDING WITH DYNATRACE AND OPENTELEMETRY

Dynatrace keeps developers in flow with streamlined, AI-driven workflows:

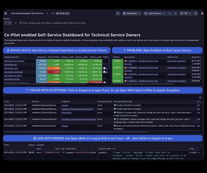
- Intuitive, code-level analysis
- Simplified pipeline automation
- AI-powered answers, not endless data
- A collaborative, customizable platform
- Real-time bottleneck detection and resolution

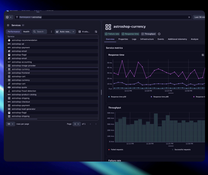
Cut through complexity to innovate faster

Make the most out of your telemetry data

COLLABORATE SEAMLESSLY WITH SHARED CONTEXT

- Unify developers, SREs, platform engineers, and DevOps with a single view of telemetry data.
- Break down silos to debug in real time and accelerate cross-functional delivery.



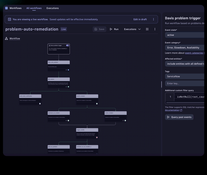


DEBUG FASTER WITH A CUSTOM EXPERIENCE

- Ask questions and get real-time answers tailored to your needs.
- Leverage customizable apps, notebooks and dashboards to keep your code performing flawlessly.

AUTOMATE WITH WORKFLOWS

- Effortlessly automate code workflows with Davis AI.
- React to code changes, build logic with custom conditions, leverage automatic retries, loops, and parallel processing to keep your pipelines running smoothly.



Dynatrace is committed to OpenSource excellence

60,995+

commits to the OpenTelemetry project and counting!

30+

Open source projects actively supported by our teams.

Dynatrace (NYSE: DT) exists to make the world's software work perfectly. Our unified software intelligence platform combines broad and deep observability and continuous runtime application security with the most advanced AIOps to provide answers and intelligent automation from data at enormous scale. This enables innovators to modernize and automate cloud operations, deliver software faster and more securely, and ensure flawless digital experiences. That's why the world's largest organizations trust the Dynatrace® platform to accelerate digital transformation.

Curious to see how you can simplify your cloud and maximize the impact of your digital teams? Let us show you. Sign up for a free 15-day Dynatrace trial!
